annual index

Subject Index

A

Abelson oncogene (ABL), March 204

Acetylcholine deficiency: in mercury poisoning, Aug 619

Acid-fast staining: versus immunoassay for *Cryptosporidium* detection, June 451

Acquired factor V inhibitor: with lupus-like features, July 551, Sept 669 (letter)

Acrodynia (pink disease), Aug 622, Sept 713

Activated partial thromboplastin time (aPTT): prolonged with normal PT, July 562

Activated protein C: for factor V-Leiden mutation testing, July 503

Acute chest syndrome: with sickle cell disease, July 516

Acute coronary syndromes: biochemical markers in risk stratification and diagnosis of, Jan 42, March 172 (letter)

Acute phase reactants: in rheumatoid arthritis diagnosis, July 547

N-Acyl-L-homoserine lactones (AHL): in quorum sensing, April 296

Addison's disease: premature menopause as signal for, Oct 752

Adenosine deaminase: and autism, Sept 715

Administration. *See* Management/administration

Adult Treatment Panel III (NIH), April 268

Aerosol therapy: in diabetes management, Nov 846

Agalactosyl IgG: and rheumatoid arthritis, July 547

Agar: antifungal testing, Aug 627, 629

Agnogenic myeloid metaplasia: terminating in acute megakaryoblastic leukemia, June 448

AIDS. *See* Human immunodeficiency viruses (HIV)

Alanine aminotransferase: in hepatitis screening, June 429; release following myocardial infarction, Jan 43

Aldolase, Jan 43

Alkali denaturation test: for sickle cell disease diagnosis, July 518, 539

Alkyl mercurials, Aug 619

Allergic transfusion reactions, April 292

Alloimmunization: as complication of blood transfusion, April 293

Alternative medicine: arsenic used in, June 444

Alzheimer's disease: apolipoprotein E testing for, July 502

Amalgam, dental, Aug 621

American College of Medical Genetics (ACMG), July 502

American Society for Clinical Laboratory Science (ASCLS), July 507

American Society for Clinical Pathology (ASCP): ASCP/CAP Exhibition, Sept 680; Board of Registry annual survey of medical laboratory science programs, Nov 831; Board of Registry established, July 506; Board of Registry statistics, January through December 2001, Sept 673; CLMA/ASCP meeting, May 325, 341, June 427, Sept 685; collaboration with CAP, July 485; Press publications for 2002, July 519; scholarship winners, Sept 675; 10-year retrospective study of medical technologists, Oct 760; workforce shortage initiatives, July 496; workshops for laboratory professionals, July 499

Amidolytic anti-factor Xa assay: two techniques for heparin therapy monitoring with, Oct 789

Anaphylactic transfusion reaction, April 292

Anastrazole, Jan 29

Anatomic pathology: myeloma with extensive desmoplastic bone marrow fibrosis, May 389

Anemia: autoimmune hemolytic, June 458; reticulocyte estimate from peripheral blood smear for evaluating, Sept 703; in sickle cell disease, July 516

Anthrax: CDC assisting other countries on, Jan 19; in HHS bioterrorism initiative, Feb 95; and medical technologist curriculum, Oct 758; suspected in laboratory worker, June 417; training laboratory personnel to identify agents of bioterrorism, Sept 699. *See also Bacillus anthracis*

Antibodies: antinuclear antibodies in rheumatoid arthritis diagnosis, July 546; solid phase antibody detection technique, Feb 131. *See also* Autoantibodies

Anti-D antibody: in hemolytic disease of the newborn, June 467; and immune hemolysis, Feb 147

Antidepressants: laboratory monitoring during depression treatment, July 513

Anti-E antibody, Feb 148

Anti-factor Xa monitoring, Oct 789

Antifungal agents: testing of, Aug 626

Anti-Jk^a antibody, Feb 148

Anti-M antibody: solid phase antibody detection technique, Feb 131

Antimicrobial susceptibility testing and reporting, Nov 877

Anti-neutrophil cytoplasmic antibodies: in rheumatoid arthritis diagnosis, July 546

Antinuclear antibodies: in rheumatoid arthritis diagnosis, July 546

Anti-perinuclear factor: in rheumatoid arthritis diagnosis, July 546

Antiretroviral therapy: laboratory monitoring in, March 194

Anti-rheumatic drugs, July 545

Anti-sickling agents, July 541

Alpha 1-antitrypsin: in rheumatoid arthritis diagnosis, July 548

Aphasia: mixed, in adult male with AIDS, Oct 769

Apolipoproteins: A-I/B ratios as useful in coronary heart disease risk assessment, Oct 790; APOE in Alzheimer's disease testing, July 502

Aromatase inhibitors, Jan 29

Arsenate, June 437

Arsenic, June 437

Arsenite, June 437

Arsenobetaine, June 439

Arsenocholine, June 439

Arsine gas, June 439

Arthritis: new developments in laboratory tests and therapy for rheumatoid, July 543

Arylmercury, Aug 619

Asialoglycoprotein receptor, April 274

Aspartate aminotransferase: in hepatitis screening, June 429; release following myocardial infarction, Jan 43

Aspergillus: Gram's stain of, Aug 610f; Mucorales distinguished from, June 456

Asplenia: with sickle cell disease, July 539

Atherosclerosis: sterols in, Oct 791

Author contribution codes, Feb 127

Autism: vaccination as trigger for, Sept 708

Autoantibodies: in autoimmune hepatitis patients, April 276; cold agglutinins, June 458; cold-reactive, April 309

Autoimmune hemolytic anemia, June 458

Autoimmune hepatitis type 2, April 273

Autoimmunity: in autism, Sept 710; in endometriosis, 829; rheumatoid arthritis, July 543

Autologous transfusion, Oct 751

Automation: autoverification in laboratory information systems, Jan 21; in cytology, Feb 92; in hospital-wide systems, March 189; new test systems, Sept 688

Autonomic nervous system: under stress, Feb 104

Azathioprine: for autoimmune hepatitis treatment, April 276

Azoles: antifungal susceptibility methods for, Aug 626

B

Bacillus anthracis: CDC assisting other countries on, Jan 19; identification of, June 433; laboratory worker exposed to, June 417; new process for killing

airborne spores, Jan 20; training laboratory personnel to identify, Sept 699. *See also* Anthrax
Bacteria: blood culture contamination reduction by policy for central intravenous catheters, Oct 797; quorum sensing in treatment of chronic bacterial biofilm infections, April 295; silver staining for spirochetes in tissues, Sept 705; training laboratory personnel to identify agents of bioterrorism, Sept 699; transfusion-related bacterial contamination, May 380
Bell, John: at CLMA/ASCP conference, Sept 690
Bar coding: and autoverification in laboratory information systems, Jan 23; barcode-enabled point-of-care (BPOC) systems, Sept 686; in hospital point-of-care testing, Jan 33
Barski, Viktor: in human genome sequencing, July 503
Bayer HIV-1 RNA 3.0 Quantitative Assay, Feb 106
Bayer Quantiplex HIV-1 RNA, Feb 106
BCR-ABL gene rearrangement, March 204
Beckman Coulter Hybritech Tandem-E Immunoenzymetric PSA assay, March 208, June 414 (letter)
Belanger, Anne C: ASCP workshop on regulation, July 500
"Benchlinks": *C-Reactive Protein and IL-6: New Marker Proteins for the Diagnosis of CJD in Plasma?*, July 496; *Presence of Propionibacterium acnes in Blood Components*, May 338; *The Rash of Latex Allergies*, March 173; *RBC Storage for 11 Weeks*, June 414; *Serratia liquefaciens Bloodstream Infections from Contamination of Epoetin at a Hemodialysis Center*, Jan 18
Biochips: in chemotherapy assessment, Aug 596
Biofilm infections: quorum sensing in treatment of chronic bacterial, April 295
Biopsies: for breast cancer, Jan 29
Bioterrorism: in ASCP workshop on microbiology, July 499; CDC Web site, March 177; Cerner *HealthSentry* system for surveillance of, Aug 593; Health and Human Services initiatives, Feb 95; and medical technologist curriculum, Oct 758, 760; NIAID research agenda on, June 420; pathogens with possibility for, June 433; states actively address, Feb 97; studies request increased funding, April 256; training laboratory personnel to identify the agents of, Sept 699, top issue of 2002, Dec 914
2,3-Biphosphoglycerate: as anti-sickling agent, July 541
bipolar depression, July 512
Blackfoot disease, June 443
Blaney, Kathy D: ASCP workshop of, July 500
Blastocystis hominis: Gram's stain of, Aug 611f, 613
Blastomycosis, Dec 930
Bleeding disorders: excessive nosebleeds, July 564; prolonged aPTT and normal PT, July 562; prolonged bleeding from tongue in an infant, July 559
Blood banking: blood smear review criteria, May 374; blood typing and discrepancies, Feb 145; correct procedure for PICC or IV port, Feb 123; delayed hemolysis, Feb 148; hemolysis in serum samples drawn by emergency department personnel versus laboratory phlebotomists, May 378; immune mediated transfusion reactions, April 287; non-immune mediated transfusion reactions, May 380; RBC storage for 11 weeks, June 414, Aug 589 (letter); SNOMED CT and, April 266; solid phase antibody detection technique, Feb 131
Bloodborne pathogens: laboratory self-inspection for safety, Feb 125; and medical technologist curriculum, Oct 758
Blood components: prices of, Feb 93
Blood cultures: contamination reduction by policy for central intravenous catheters, Oct 797
Blood gases: hospital point-of-care data collection and integration, Jan 34; new analyzers for, Sept 690
Blood smear review: criteria for, May 374, Sept 671 (letter)
Blood transfusion. *See* Transfusion medicine
Blood typing: discrepancies in, Feb 145; for transfusion reactions, May 384
Blood urea nitrogen (BUN): in depression diagnosis, July 512
Bone: Depo-Provera associated with bone loss, Oct 752
Bone marrow: myeloma with extensive desmoplastic fibrosis, May 389
Bone marrow transplantation: natural killer cells and, April 279; in sickle cell disease treatment, July 539
Bordetella pertussis: as reemergent, June 436
Borrelia: silver staining for spirochetes in tissues, Sept 705
Bovine spongiform encephalopathy (BSE): therapeutic potential of prion protein peptides for, May 369
Bradykinin: in transfusion reactions, April 287
Brain natriuretic peptide: in congestive heart failure diagnosis and management, Oct 793
Breast cancer: genetic testing guidelines for, July 503; new radiation device approved for, July 497; top issue of 2002, Dec 916; update on diagnosis, treatment, and outcomes of, Jan 26
Brucella: training laboratory personnel to identify, Sept 700
Burkholderia cepacia: quorum sensing regulating biofilm formation in, April 295

C

CA 19-9, July 497
Calcium: teenagers not getting enough, Feb 94
Calcium pyrophosphate dihydrate: Shidham's staining method for, Feb 117, April 252 (letter)
Campylobacter: resistance to treatment in, June 435
Cancer: Gleevec approved for treating gastrointestinal, March 177; natural killer cells and tumors, April 279; new radioimmunoassay kit approved for pancreatic, July 497; radiofrequency energy as alternative to surgery, March 175; SNOMED CT in incidence reporting, April 265; treating pain, depression, and fatigue in, Sept 672. *See also* Breast cancer; Ovarian cancer
Candida: apperance in tissue, Dec 932; antifungal agents for, Aug 626; Gram's stain for, Aug 613; Mucorales distinguished from, June 456
Capsofungin: antifungal susceptibility methods for, Aug 626
Capsule endoscope: covered for reimbursement, Aug 593
Carbamazepine: laboratory monitoring during depression treatment, July 513
Carbonic anhydrase III: in risk stratification and diagnosis of acute coronary syndromes, Jan 47
Cardiac markers: in risk stratification and diagnosis of acute coronary syndromes, Jan 42
Cardiac troponin I: in risk stratification and diagnosis of acute coronary syndromes, Jan 42, 47
Cardiac troponin T: in risk stratification and diagnosis of acute coronary syndromes, Jan 42, 47
Casein: and autism, Sept 715
Case studies: abdominal tenderness, Dec 923; acute diarrhea in young traveler, Oct 775; blood typing and discrepancies, Feb 145; altered mental status, Dec 917; bone pain in middle-age woman, Nov 854; cola-colored urine, Nov 860; cold-reactive autoantibodies, April 309; conflicting whole blood and urine ethanol results, March 227; delayed hemolysis, Feb 148; excessive nosebleeds, July 564; growth delay in adolescent male, Jan 65; hemolytic disease of the newborn, June 467; immune hemolysis, Feb 147; large facial cheek lesion in a 52-year-old male, Nov 864; marked proteinuria in a young male, June 463; mixed aphasia in adult male with AIDS, Oct 769; myeloma with extensive desmoplastic bone marrow fibrosis, May 389; needle-shaped urine crystals, Aug 637; paradoxical cortisol results, Jan 63; prolonged aPTT and normal PT, July 562; prolonged bleeding from tongue in an infant, July 559; recurrent sinusitis, Nov 849; severe head trauma during motor vehicle accident, Sept 721; severe neutropenia in 47-year-old patient, Oct 773
CD4: and autism, Sept 709; CD4+ T-lymphocyte counts, March 194; in HIV infection, Sept 693
CD26: and autism, Sept 715
CD56: in natural killer cell identification, April 278
Cellulose acetate hemoglobin electrophoresis: for sickle cell disease diagnosis, July 518, 539
Centers for Disease Control and Prevention (CDC): bioterrorism Web site, March 177; bloodborne pathogens meetings, Oct 758; guidelines for reporting HIV laboratory test results, Feb 106; influenza report, March 177; Laboratory Response Network, Sept 699; on laboratory role in influenza diagnosis, June 421; on smoking's costs, June 419; West Nile virus activities of, Oct 754
Centers for Medicare & Medicaid Services: test panels

eliminated by, Oct 767; on waived site performance, July 507
Centrifugation-enhanced shell vial assay: for virus detection, April 284
Certification: examinations as difficult, Oct 759; for phlebotomy, Jan 11; workforce shortage and, July 507
Chelation therapy: for mercury poisoning, Aug 623
Chemical Hygiene Plan, Feb 124
Chemicals: laboratory self-inspection for safety, Feb 124
Chemistry: abdominal tenderness, Dec 923; acute diarrhea in young traveler, Oct 775; altered mental status, Dec 917; arsenic, June 437; autoimmune hepatitis type 2, April 273; autoverification in laboratory information systems, Jan 24; biochemical markers in risk stratification and diagnosis of acute coronary syndromes, Jan 42; blood smear review criteria, May 374; blood typing and discrepancies, Feb 145; brain natriuretic peptide in diagnosis and management of congestive heart failure, Oct 793; bone pain in middle-age woman, Nov 855; cola-colored urine, Nov 860; cold agglutinin syndrome, June 457; common errors in sweat testing reporting for cystic fibrosis, Jan 55; conflicting whole blood and urine ethanol results, March 227, D-Dimer in venous thromboembolism diagnosis, Feb 136; delayed hemolysis, Feb 148; growth delay in adolescent male, Jan 65; hospital point-of-care data collection and integration, Jan 34; immune hemolysis, Feb 147; immunoassay versus acid-fast staining for *Cryptosporidium* detection, June 451; marked proteinuria in a young male, June 463; myeloma with extensive desmoplastic bone marrow fibrosis, May 389; needle-shaped urine crystals in ethylene glycol poisoning, Aug 637; newborn screening for cystic fibrosis, March 212; paradoxical cortisol results, Jan 63; qualitative test for screening cystinuria, March 214; recurrent sinusitis, Nov 849; severe head trauma during motor vehicle accident, Sept 721; Tandem-E Immunoenzymetric and Immuno-1 PSA assays compared, March 208
Chemokine receptors: in HIV infection, Sept 693
Chemotherapy: biochip in assessment of, Aug 596
Chest pain: evaluation centers for, Jan 44; evaluation of, Jan 43, 44
Chlamydia trachomatis: urethritis associated with, June 465
Cholesterol: and apolipoproteins, Oct 791; National Institutes of Health report on, April 267
Cholestyramine, April 270
Chromated copper arsenate, June 437, 444
Chromatography: in cystinuria screening, March 214
Chronic hepatitis B, Nov 829
Ciprofloxacin, June 436
Circulating cartilage oligomeric protein: in rheumatoid arthritis diagnosis, July 548
Circulatory overload, May 380
Citrate agar hemoglobin electrophoresis: for sickle cell disease diagnosis, July 518, 539
Clinical Laboratory Improvement Amendments of 1988 (CLIA '88): on the job training and, July 509
Coagulation: acquired factor V inhibitor with lupus-like features, July 551; D-Dimer in venous thromboembolism diagnosis, Feb 136; excessive nosebleeds, July 564; hemolysis in serum samples drawn by emergency department personnel versus laboratory phlebotomists, May 378; "Media," Sept 725; new anti-clotting drug clears FDA, Feb 94; non-immune mediated transfusion reactions, May 380; prolonged aPTT and normal PT, July 562; prolonged bleeding from tongue in an infant, July 559; sickle cell disease, July 515; in trypanosomiasis (sleeping sickness), Oct 786; two techniques for heparin therapy monitoring with amidolytic anti-factor Xa assay, Oct 789; vena cava thrombosis and fatal pulmonary embolus, July 553
Coagulation tests: autoverification in laboratory information systems, Jan 24; hospital point-of-care data collection and integration, Jan 34
Coccidioidomycosis, Dec 931
Cold agglutinins: diseases associated with, Jan 54
Cold agglutinin syndrome, June 457
Cold-reactive autoantibodies, April 309
Colestipol, April 270
College of American Pathologists (CAP): on autoverification, Jan 21, 22; on blood smear review criteria, May 374; collaboration with ASCP, July 485; SNOMED International, April 263
Colmer-Hamood, Jane: on medical technologist education, Oct 758, 759
Colorimetry: antifungal panels, Aug 627, 628; in cystinuria screening, March 214
Common variable immunodeficiency, Sept 716
Competency testing: blood smear review criteria, May 374
Complement activation: in rheumatoid arthritis, July 547
Complete blood count (CBC): blood smear review criteria, May 374
Compliance: blood culture contamination reduction by policy for central intravenous catheters, Oct 797; effective programs a must, Feb 99; with hospital-wide systems, March 189; laboratory self-inspection for safety, Feb 123; variation in phlebotomies, March 179
Computers: Cerner *HealthSentry* system for bioterrorism surveillance, Aug 593; new software products, Sept 687. *See also* Internet; Laboratory information systems
Congestive heart failure (CHF): brain natriuretic peptide in diagnosis and management of, Oct 793
Connectivity Industry Consortium, Jan 33
Contamination control: for blood cultures, Oct 797
"Continuing Education Update" series: antifungal susceptibility methods, Aug 626; arsenic, June 437; blood culture contamination reduction by policy for central intravenous catheters, Oct 797; blood smear review criteria, May 374; brain natriuretic peptide in diagnosis and management of congestive heart failure, Oct 793; challenges in antimicrobial susceptibility testing and reporting, Nov 877; common errors in sweat testing reporting for cystic fibrosis, Jan 55; depression, July 511; fungi appearance in tissue, Dec 927; hemostasis, Dec 948; laboratory self-inspection for safety, Feb 123; lead toxicology: Dec 934; mercury toxicology, Aug 614; mucormycosis, June 455; natural killer cells and their role in disease, April 278; newborn screening for cystic fibrosis, March 212; rapid diagnosis of viral infections, April 283; rheumatoid arthritis, July 543; silver staining for spirochetes in tissues, Sept 705
Coronary heart disease: apolipoprotein A-I/B ratios as useful in risk assessment for, Oct 790; cholesterol as risk factor for, April 268
Cortisol: paradoxical results, Jan 63
Cosmetics: mercury used in, Aug 621
Cost containment: test utilization and, Oct 761
Cox, David: on Internet health care administration system, Sept 687
Craig, Elinore: on early laboratory information systems, March 188
C-reactive protein: in Creutzfeldt-Jakob disease diagnosis, July 496; in rheumatoid arthritis diagnosis, July 544, 547; in risk stratification and diagnosis of acute coronary syndromes, Jan 43, 50
Creatine kinase: in risk stratification and diagnosis of acute coronary syndromes, Jan 42
Creatine kinase, MB isoenzyme of (CK-MB): in risk stratification and diagnosis of acute coronary syndromes, Jan 42
Creatinine: in depression diagnosis, July 512
Creutzfeldt-Jakob disease: blood transfusion restrictions for, May 383; C-reactive protein and IL-6 as markers for, July 496; therapeutic potential of prion protein peptides in, May 369
Cross-training: and expense management, Oct 762
Cryptococcus neoformans: appearance in tissue, Dec 932; antifungal agents for, Aug 626
Cryptosporidiosis, May 339, June 451, Aug 612
Cryptosporidium: Gram's stain of, Aug 611f, 613; immunoassay versus acid-fast staining for detecting, June 451; rapid assay kits recalled, May 339
Cryptosporidium parvum, June 451
Crystals: Shidham's staining method for evaluating water-soluble, Feb 117
C-terminal cross-linking telopeptide of type II collagen: in

rheumatoid arthritis diagnosis, July 548
CXCR4: in HIV infection, Sept 693
Cystic fibrosis: CFTR protein and, Jan 56; common errors in sweat testing reporting, Jan 55; complete test, Dec 911; newborn screening for, March 212; *Pseudomonas aeruginosa* biofilm infections in, April 298; screening guidelines for, July 503
Cystinuria: qualitative test for screening for, March 214
Cytokeratins: and rheumatoid arthritis, July 547
Cytokines: in autism, Sept 709; natural killer cells activated by, April 278; in trypanosomiasis (sleeping sickness), Oct 786
Cytology: ASCP workshop on, July 499; automation in, Feb 92; blood smear review criteria, May 374; in breast cancer detection, Jan 29; chronic myelogenous leukemia, March 203; fungi in tissue, Dec 927; large facial cheek lesion in a 52-year-old male, Nov 864; natural killer cells and their role in disease, April 278; rapid diagnosis of viral infections, April 283; reticulocyte estimate from peripheral blood smear for evaluating anemia, Sept 703; role of fine needle aspiration in diagnosis of infectious disease, Nov 866; sickle cell disease, July 515
Cytomegalovirus (CMV): rapid diagnosis of, April 285; transfusions transmitting, May 382

D

D antigen: discrepancies in blood typing, Feb 145
Dash, Rajesh: on SNOMED CT, April 263
Data management: hospital point-of-care testing, Jan 37
D-dimer assay: in venous thromboembolism diagnosis, Feb 136, April 253 (letter)
Defibrillators: new systems approved for cardiac resynchronization therapy, Aug 591; new use for implantable, Sept 672
Delayed hemolytic transfusion reactions, April 288
Delsea pulchra, April 302
Deoxypyridinoline: in rheumatoid arthritis diagnosis, July 548
Depo-Provera: bone loss associated with, Oct 752
Depression: clinical laboratory in diagnosis and treatment of, July 511
Dexamethasone suppression test: in depression diagnosis, July 512
Diabetes mellitus: changing world of testing and control, Nov 845; diabetics as unconcerned about complications, Aug 593; impaired glucose tolerance and type 2, June 419; lifestyle changes delay or prevent type 2, April 257; severe head trauma during motor vehicle accident, Sept 721; type 2 as risk factor for coronary heart disease, April 269
Diarrhea: *Salmonella typhi* causing acute, Oct 775
Digital rectal exam (DRE): for prostate cancer detection, March 208
Dimethyl adipimidate: as anti-sickling agent, July 541
Dimethylarsine, June 439
Dimethylmercury, Aug 615, 620
Direct antiglobulin test: for transfusion reactions, May 384
Direct immunofluorescence assay (DFA): for virus detection, April 283
Disaster preparedness: laboratory self-inspection, Feb 124
Disc diffusion methods: for antifungal testing, Aug 627, 629
Dithionate tube test: for sickle cell disease diagnosis, July 518, 539
Doctors Without Borders (Médecins Sans Frontières), April 259
Double shifts, June 414 (letter)
Downsizing: negative effects of, July 506
Drug resistance: to β-lactamases, June 434; HIV drug resistance testing, March 197
Drugs, therapeutic: for cholesterol reduction, April 269; FDA updates pharmaceutical GMPs, Oct 753
Dyspnea: in congestive heart failure, Oct 795

E

Echocardiography: for congestive heart failure diagnosis, Oct 796
"Editorial": "How You Will Benefit by Attending the ASCP/CLMA Meeting," May 325; "Reflections on 30+ Years in Laboratory Medicine," Jan 3
Education: Board of Registry annual survey of medical laboratory science programs, Nov 831; changing medical technologist curriculum, Oct 757; closure of MLT programs, July 496 (letter), July 506; guidelines for preparing scientific manuscripts, Jan 77, Feb 127; in phlebotomy, Jan 11; physician CME, Nov 837; reverse problem based learning, March 218; training laboratory personnel to identify the agents of bioterrorism, Sept 699. *See also* "Continuing Education Update" series; Training
Eflornithine: in trypanosomiasis treatment, Oct 787
Ehrmeyer, Sharon S: ASCP workshop on regulation, July 500
80/20 rule, Oct 766
Electrical equipment: laboratory self-inspection for safety, Feb 125
Embolism, pulmonary. *See* Pulmonary embolism
Emergency department: hemolysis in serum samples drawn by laboratory phlebotomists versus personnel from, May 378, Aug 589 (letter)
Emerging pathogens: international conference on, June 431; and medical technologist curriculum, Oct 758
Endocrine disorders: growth delay in adolescent male, Jan 65; "Media," Sept 727; paradoxical cortisol results, Jan 63
Endocrinology: "Media," Sept 727; severe head trauma during motor vehicle accident, Sept 721
Endometriosis: and other diseases, Nov 829
Enteric fever: and acute diarrhea in traveler, Oct 775
Enterocolitis with lymphonodular hyperplasia: and autism, Sept 714
Enteroviruses: rapid diagnosis of, April 286
Enterprise Analysis Corporation, Jan 33
Enzymes: liver enzymes for screening prior to hepatitis testing, June 429
Ergotropic responses, Feb 104
Error: Institute of Medicine report on, Sept 686; on the job training and, July 508; in sweat testing reporting for cystic fibrosis, Jan 55
Erythrocyte sedimentation rate: in rheumatoid arthritis diagnosis, July 544, 547
Escherichia coli 0157:H7: increase in incidence of, June 433
Etest, Aug 628, 629
Ethanol: conflicting whole blood and urine results, March 227
Ethiopia: laboratorian volunteers in, April 259
Ethylene glycol poisoning, Aug 637
Exchanging Health Information (EHI), March 190

F

Factor V: acquired factor V inhibitor with lupus-like features, July 551, Sept 669 (letter)
Factor V-Leiden mutation: testing for, July 503
Factor VIII: prolonged aPTT with normal PT, July 562
False Claims Act, Feb 99
Fasting lipoprotein profile: recommended frequency of, April 268
Fatty-acid-binding proteins: in risk stratification and diagnosis of acute coronary syndromes, Jan 50
Fear: coping with, Feb 101
"Features": changing medical technologist curriculum, Oct 757; changing world of diabetes testing and control, Nov 845; CLMA/ASCP 2002 Conference and Exhibition, May 341; CLMA/ASCP studies the business of health care, Sept 685; diagnosis, treatment, and outcomes of breast cancer, Jan 26; genetic testing in mainstream medicine, July 501; hospital-wide information systems, March 187; international conference on emerging infectious diseases, June 431; laboratory equipment trends, Feb 111; laboratory monitoring in HIV infection management, March 193; National Institutes of Health cholesterol initiative, April 267; national laboratory inventory of wild poliovirus, Oct 755; on the job training as response to manpower shortage, July 505; test utilization in budget constrained environment, Oct 761; top laboratory issues, Dec 913
Febrile non-hemolytic transfusion reactions, April 290
Fetal alcohol syndrome: task force, Nov 830
Fibrinogen: in trypanosomiasis (sleeping sickness), Oct 786, 789
Fibrosis: myeloma with extensive desmoplastic bone

marrow, May 369
Fight or flight reaction, Feb 105
Fine needle aspiration: in diagnosis of infectious disease, Nov 866
Fire prevention: laboratory self-inspection, Feb 124
Fish: mercury poisoning from, Aug 619, 623
Flow cytometry: in CD4+ T-lymphocyte counts, March 194; "Media," Sept 726
Flowers, Joe: on changes in health care, Sept 686
Fluconazole: antifungal susceptibility methods for, Aug 626
Flucytosine: antifungal susceptibility methods for, Aug 626
Fluorescence in situ hybridization (FISH): for *Bacillus anthracis* identification, June 433; for chronic myelogenous leukemia, March 204; technical and clinical assessment of, July 503
FMR1 gene: testing for, July 504
Food and Drug Administration (FDA): and autoverification in laboratory information systems, Jan 22; budget increase for, March 176; medical devices approved in 2001, Feb 112; pharmaceutical GMPs updated, Oct 753; seized medical devices destroyed by, Sept 672; senior associate commissioner for regulatory affairs appointed, Oct 753; on validating procedures for human tissue processing, June 418, treatment for chronic hepatitis B, Nov 829
Foodborne pathogens: CDC report on, June 432
Forensic pathology: SNOMED CT and, April 265
Fragile X syndrome: genetic testing for, July 504
Francisella tularensis: training laboratory personnel to identify, Sept 700
Freed, Eric: on HIV entry into cells, Jan 19
Friedewald equation, April 268
Frustration: coping with, Feb 101
Fungi: appearance in tissue, Dec 927
Fungitest panel, Aug 627
Fusobacterium nucleophorum, March 222

G

Galactosylceramide: in HIV infection, Sept 695
Garcia, Lynne S: ASCP workshop on changes in medical technology, July 500
Gastrointestinal cancer: Gleevec approved for treating, March 177
GB virus C, May 383
Gemfibrozil, April 270
General Accounting Office (GAO): on health care workforce, July 506
Generalist: arsenic, June 437; common errors in sweat testing reporting for cystic fibrosis, Jan 55; depression, July 511; growth delay in adolescent male, Jan 65; guidelines for preparing scientific manuscripts, Jan 77, Feb 127; laboratory self-inspection for safety, Feb 123; mercury toxicology, Aug 614; newborn screening for cystic fibrosis, March 212; paradoxical cortisol results, Jan 63; reverse problem based learning, March 218; Shidham's staining method, Feb 117; vaccines and autism, Sept 708
Gene therapy: for sickle cell disease, July 541
Genetic testing: for breast cancer, Jan 28; in mainstream medicine, July 501; new technology in, Sept 690; for rheumatoid arthritis, July 548
Genotype resistance assays, March 197
Giardia lamblia: Gram's stain of, Aug 611f, 613
Gleevec: for chronic myelogenous leukemia, March 206; for gastrointestinal cancer, March 177
Globotriaosylceramide: in HIV infection, Sept 695
Glucose: hospital point-of-care data collection and integration, Jan 34; impaired glucose tolerance in children, June 419; regulating uptake, Nov 847
Glucose meters: personal digital assistants used with, Aug 591
Glucosyl-galactosyl-pyridoinoline: in rheumatoid arthritis diagnosis, July 548
Gluten: and autism, Sept 715
Glycogen phosphorylase, BB isoenzyme of: in risk stratification and diagnosis of acute coronary syndromes, Jan 43, 49
Glycosphingolipids: in HIV infection, Sept 695
Gonorrhea: urethritis associated with, June 465
Gore, Amanda: CLMA/ASCP conference speech of, Sept 692
Gout: Shidham's staining method for monosodium urate crystals, Feb 117
Gp 120, Sept 693
Graham, Anna: at CLMA/ASCP conference, Sept 690
Gram's stain, Aug 609
Groundwater: arsenic contamination of, June 437, 444
Growth delay: in adolescent male, Jan 65
Growth hormone: growth delay in adolescent male, Jan 65
Grundy, Scott M: and NIH cholesterol report, April 268

H

Haemophilus influenza: autism and vaccine for, Sept 708
Hair: for arsenic testing, June 445; for mercury testing, Aug 623
Handheld devices: glucose meters approved for use with, Aug 591; in hospital point-of-care data collection and integration, Jan 42
Hazardous waste: laboratory self-inspection for safety, Feb 124
Head trauma: during motor vehicle accident, Sept 721
Health auditing: laboratory self-inspection, Feb 123, May 338 (letter)
Health care costs: as increasing in 2000, April 256
Heart: rheumatic fever's damage to, June 421. *See also* Heart disease
Heart attack: age in gender in outcome of, Aug 596. *See also* Myocardial infarction
Heart disease: biochemical markers in risk stratification and diagnosis of acute coronary syndromes, Jan 42; brain natriuretic peptide in diagnosis and management of congestive heart failure, Oct 793. *See also* Coronary heart disease
Helicobacter: silver staining for spirochetes in tissues, Sept 705
Helicobacter pylori: Gram's stain for, Aug 614
Hematology: acquired factor V inhibitor with lupus-like features, July 551; agnogenic myeloid metaplasia terminating in acute megakaryoblastic leukemia, June 448; altered mental status, Dec 917; ASCP workshop on, July 499; blood smear review criteria, May 374; blood typing and discrepancies, Feb 145; bone pain in a middle-age woman, Nov 854; cola-colored urine, Nov 860; cold agglutinins, Jan 54; cold agglutinin syndrome, June 457; cold-reactive autoantibodies, April 309; correct procedure for PICC or IV port, Feb 123; D-Dimer in venous thromboembolism diagnosis, Feb 136; delayed hemolysis, Feb 148; excessive nosebleeds, July 564; hemolysis in serum samples drawn by emergency department personnel versus laboratory phlebotomists, May 378; hemolytic disease of the newborn, June 467; hemostasis overview, Dec 948; hospital point-of-care data collection and integration, Jan 34; immune hemolysis, Feb 147; immune mediated transfusion reactions, April 287; new analyzers, Sept 690; non-immune mediated transfusion reactions, May 380; prolonged aPTT and normal PT, July 562; prolonged bleeding from tongue in an infant, July 559; reticulocyte estimate from peripheral blood smear for evaluating anemia, Sept 703; salvaging clotted specimens from pediatric patients, July 495 (letter); severe neutropenia in 47-year-old patient, Oct 773; sickle cell disease, July 515; two techniques for heparin therapy monitoring with amidolytic anti-factor Xa assay, Oct 789; vena cava thrombosis and fatal pulmonary embolus, July 553
Hematology analyzers: autoverification in laboratory information systems, Jan 24
Hemochromatosis: blood donation by patients with, May 383
Hemodialysis: for mercury poisoning, Aug 624
Hemoglobin C: and sickle cell disease, July 516
Hemoglobin D: and sickle cell disease, July 517
Hemoglobin E: and sickle cell disease, July 517
Hemoglobin electrophoresis: for sickle cell disease diagnosis, July 518, 539
Hemoglobin F: as sickle cell disease modulator, July 517
Hemoglobinopathies: and sickle cell disease, July 516
Hemoglobin S: in sickle cell disease, July 515
Hemolysis: delayed, Feb 148; immune, Feb 147; in serum samples drawn by emergency department personnel versus laboratory phlebotomists, May

378, Aug 589 (letter)
Hemolytic disease of the newborn: management of, June 467
Hemolytic transfusion reactions, April 288
Hemostasis: overview, Dec 948
Heparin: two techniques for therapy monitoring with amidolytic anti-factor Xa assay, Oct 789
Hepatitis: autoimmune, type 2, April 273; liver enzymes for screening prior to hepatitis testing, June 429; transfusions transmitting, May 382
Hepatitis B virus: autism and vaccine for, Sept 708, treatment for, Nov 829
Hepatitis C virus: chronic, Dec 923; nucleic acid test for screening for, May 339; progress in management of, Aug 591; transfusions transmitting, May 382
Hepsera: treatment for hepatitis B, Nov 829
Herbicides: arsenic in, June 443
Herceptin: in breast cancer treatment, Jan 29
Herpes simplex virus: rapid diagnosis of, April 285
Herpesviruses: rapid diagnosis of, April 285
High blood pressure: prevention, Dec 911
High-density lipoprotein (HDL): apolipoproteins and, Oct 790; NIH cholesterol report on, April 268
Highly active retroviral therapy (HAART), March 194
Histology: agnogenic myeloid metaplasia terminating in acute megakaryoblastic leukemia, June 448; blood smear review criteria, May 374; cola-colored urine, Nov 860; Gram's stain, Aug 609; fungi in tissue, Dec 927; immunoassay versus acid-fast staining for *Cryptosporidium* detection, June 451; large facial cheek lesion in a 52-year-old male; mucormycosis, June 455; primary amoebic meningoencephalitis, Jan 57; rapid diagnosis of viral infections, April 283; reticulocyte estimate from peripheral blood smear for evaluating anemia, Sept 703; role of fine needle aspiration in diagnosis of infectious disease, Nov 866; Shidham's staining method, Feb 117; silver staining for spirochetes in tissues, Sept 705
Histoplasmosis, Dec 931
HIV. *See* Human immunodeficiency viruses
Homeopathy: mercury used in, Aug 621
Homeostasis: in psychophysiology of stress and relaxation, Feb 103
Homocysteine: in risk stratification and diagnosis of acute coronary syndromes, Jan 43, 50
Hospital information systems (HIS): in hospital-wide systems, March 187
Hospital laboratories: point-of-care data collection and integration, Jan 33, March 173 (letter)
Human immunodeficiency viruses (HIV): CDC guidelines for reporting laboratory test results, Feb 106; changing paradigm for, Sept 693; entry into cells, Jan 19; laboratory monitoring in management of, March 193; mixed aphasia in adult male with AIDS, Oct 769; nucleic acid test for screening for, May 339; test kit shortage for, July 497; transfusions transmitting, May 382
Human T-cell lymphotropic virus: transfusions transmitting, May 382
Hyaluronic acid: in rheumatoid arthritis diagnosis, July 548
Hybritech Immuno-1 PSA assay, March 208
Hydroxyurea: in sickle cell disease treatment, July 540
Hyaline molds, Dec 928
Hyperparathyroidism: and depression, July 513
Hyperprolactinemia, Jan 65
Hyperthyroidism: and depression, July 513
Hyperventilation, Feb 105
Hyponatremia: and acute diarrhea in traveler, Oct 778; laboratory monitoring during depression treatment, July 513; and paradoxical cortisol results, Jan 63
Hypothyroidism, July 513
Hypoventilation, Feb 105

I

ICD-9 codes: SNOMED CT and, April 264
IgM rheumatoid factor: in rheumatoid arthritis diagnosis, July 546
IMPRAD format, Feb 127
Imaging techniques: for breast cancer detection, Jan 28
Imaging technology: in hospital-wide systems, March 190
Immediate hemolytic transfusion reactions, April 288
Immune hemolysis, Feb 147
Immunoassays: overview of antibody interference, specificity, and cross-reactivity, Nov 873; versus acid-fast staining for *Cryptosporidium* detection, June 451; Tandem-E Immunoenzymetric and Immuno-1 PSA assays compared, March 208
Immunohematology: cold-reactive autoantibodies, April 309; hemolytic disease of the newborn, June 467
Immunology: altered mental status, Dec 917; African sleeping sickness in young American tourist, Oct 783; autoimmune hepatitis type 2, April 273; changing HIV paradigm, Sept 693; cold agglutinins, Jan 54; cold-reactive autoantibodies, April 309; hemolytic disease of the newborn, June 467; immune mediated transfusion reactions, April 287; immunoassay overview, Nov 873; natural killer cells and their role in disease, April 278; non-immune mediated transfusion reactions, May 380; primary amoebic meningoencephalitis, Jan 57; quorum sensing in treatment of chronic bacterial biofilm infections, April 295; rapid diagnosis of viral infections, April 283; recurrent sinusitis, Nov 849; rheumatoid arthritis, July 543; therapeutic potential of prion protein peptides in transmissible spongiform encephalopathies, May 369; vaccines and autism, Sept 708
Immunoreactive trypsinogen: in cystic fibrosis screening, March 212
Immunosuppression: blood transfusion causing, April 294
Immunotherapy: natural killer cells in, April 278, 282
Impaired glucose tolerance, June 419
Implantable pumps: in diabetes management, Nov 846
Infections: natural killer cells and viral, April 279; quorum sensing in treatment of chronic bacterial biofilm, April 295; rapid diagnosis of viral, April 283
Infectious diseases: international conference on emerging, June 431; training laboratory personnel to identify the agents of bioterrorism, Sept 699
Influenza: CDC on laboratory role in diagnosis of, June 421; CDC report on, March 177
Influenza viruses: rapid diagnosis of, April 283
Information management: in hospital-wide systems, March 190
Information technology: status of health care industry's, Sept 686
Instrumentation: medical devices approved by FDA in 2001, Feb 111
Integrating the Healthcare Enterprise (IHE), March 188
Interferon-gamma: in autism, Sept 709; for chronic myelogenous leukemia, March 206; natural killer cells producing, April 278; in trypanosomiasis (sleeping sickness), Oct 786
Interleukin-6: in Creutzfeldt-Jakob disease diagnosis, July 496
Interleukins: in autism, Sept 710
Intermediate-density lipoprotein (IDL), Oct 791
International Stress Management Association, Feb 102
Internet: breast cancer histotechnology listserv, Jan 31; health care administration services on, Sept 687; hospital point-of-care data collection and integration, Jan 42. *See also* World Wide Web
Intravenous infusions: blood culture contamination reduction by policy for central intravenous catheters, Oct 797; drawing blood from IV port, Feb 123
Iron overload, May 383
Izadi, Parvin: ASCP workshop on hematology, July 499

J

Jackevicius, Cynthia: on cholesterol drug compliance, April 270
Jackson, Rodney N: on breast cancer detection, Jan 31
Joint Commission on Accreditation of Healthcare Organizations (JCAHO): autoverification in laboratory information systems, Jan 23

K

K562 tumor cell line, April 278
King, Libby: ASCP workshop on microbiology, July 499

L

Laboratory information systems (LIS): autoverification in, Jan 21; hospital point-of-care data collection and integration, Jan 33, 39, March 173 (letter); in hospital-wide systems, March 187; LabSoft's LIS administrator, Sept 687

Laboratory Medicine: associate editor at ASCP/CLMA meeting, May 325; new associate editor for, Jan 3; safety and January 2002 cover, March 172 (letter)
Laboratory Response Network (LRN), Sept 699
"Labscam," Feb 99
β-Lactamases: resistance to, June 434
Lactate dehydrogenase: in risk stratification and diagnosis of acute coronary syndromes, Jan 43, 46
Latex agglutination test: in rheumatoid arthritis diagnosis, July 545, 546
Latex allergy: increase in, March 173
Lead: toxicology, Dec 934
Leaky gut: and autism, Sept 715
Lecithin cholesterol acyl transferase (LCAT), Oct 791
Legal issues: autoverification in laboratory information systems, Jan 22; effective compliance programs a must, Feb 99
Lemierre's syndrome, March 222
Leukemia: agnogenic myeloid metaplasia terminating in acute megakaryoblastic, June 448; chronic myelogenous, March 203
Leukoencephalopathy: progressive multifocal, Oct 771
Lewisite, June 437
Licensure: effects of lack of, July 507; states having or trying to pass laws, Sept 734
Lipid panels: NIH cholesterol report on, April 269
Lipoproteins: apolipoproteins, Oct 791; NIH cholesterol report on, April 268
Listeria monocytogenes, June 432
Lithium: laboratory monitoring during depression treatment, July 513
Liver/kidney microsome type 1 (LKM-1) antibody, April 276
Low-density lipoprotein (LDL): apolipoproteins and, Oct 790; NIH cholesterol report on, April 268
Lupus. *see* Systemic lupus erythematosus
Lupus anticoagulant: acquired factor V inhibitor with lupus-like features, July 551, Sept 669 (letter); in prolonged bleeding from tongue in an infant, July 560
LuxR protein, April 296
Lymphokine activated killer (LAK) cells, April 279
Lymphoma: biochip for chemotherapy assessment for, Aug 596

M

Major Depressive Episode, July 511
Major histocompatibility complex (MHC): natural killer cells and Class I, April 279
Malaria: international conference on, April 255; possible vaccine for, March 175; sickle cell disease associated with, July 515; transfusions transmitting, May 383
Mammography: improving, Jan 27
Managed care: SNOMED CT and, April 266
Management/administration: effective compliance programs a must, Feb 99; hospital point-of-care data collection and integration, Jan 33; laboratory self-inspection for safety, Feb 123; reverse problem based learning, March 218; Tandem-E Immunoenzymetric and Immuno-1 PSA assays compared, March 208; training laboratory personnel to identify the agents of bioterrorism, Sept 699
Management information systems (MIS): in hospital-wide systems, March 187
Manuals: for safety procedures, Feb 124
Margarine: for cholesterol control, April 270
Materials Safety Data Sheet, Feb 125
Measles-mumps-rubella (MMR) vaccine, Sept 708, 713
"Media": *Blood Transfusion Therapy: A Physician's Handbook*, 6th ed, July 567; *Bone Marrow Pathology*, 2nd ed, Nov 887; *Endocrine Diseases*, Sept 727; *Flow Cytometry in Clinical Diagnosis*, 3rd ed, Sept 726; *Interpretation of Semen Analysis: A Practical Guide*, June 471; *Leikin & Paloucek's Poisoning & Toxicology Handbook*, 3rd ed, Oct 804; *Manual of Coagulation Disorders*, Sept 725; *Microwave Techniques and Protocols*, Jan 68; *Phlebotomy Handbook: Blood Collection Essentials*, 6th ed, March 229; *Progress in Pathology*, Volume 5, Oct 803
Medicaid: effective compliance programs a must, Feb 99
Medical liability insurance: increasing rates for, Aug 593
Medicare: effective compliance programs a must, Feb 99; expenditures increase in 2000, April 256
Melarsoprol: in trypanosomiasis treatment, Oct 787
Meningoencephalitis: primary amoebic, Jan 57
Menopause: Addison's disease and premature, Oct 752
Mercuric chloride, Aug 615, 618
Mercuric nitrate, Aug 615, 618
Mercury: and autism, Sept 708, 711; toxicology of, Aug 614
Merthiolate, Sept 711
Metallothionein: mercury and, Aug 619
Metformin, April 257
Methotrexate: for rheumatoid arthritis, July 545
Methylmercury, Aug 615, 619, Sept 711
MHC class I chain-related A (MICA), April 279
Microbiology: acute diarrhea in young traveler, Oct 775; African sleeping sickness in young American tourist, Oct 783; antifungal susceptibility methods, Aug 626; ASCP workshop on, July 499; blood culture contamination reduction by policy for central intravenous catheters, Oct 797; challenges in antimicrobial susceptibility testing and reporting, Nov 877; cold agglutinins, Jan 54; fungi appearance in tissue, Dec 927; Gram's stain, Aug 609; immunoassay versus acid-fast staining for *Cryptosporidium* detection, June 451; Lemierre's syndrome in young adult, March 222; mucormycosis, June 455; on the job training in, July 508; primary amoebic meningoencephalitis, Jan 57; quorum sensing in treatment of chronic bacterial biofilm infections, April 295; role of fine needle aspiration in diagnosis of infectious disease, Nov 866; rhinosporidiosis, Aug 631; silver staining for spirochetes in tissues, Sept 705; training laboratory personnel to identify the agents of bioterrorism, Sept 699
Minamata disease, Aug 619
Mirtazepine: laboratory monitoring during depression treatment, July 513
"Missing self hypothesis," April 279
Molecular diagnosis: agnogenic myeloid metaplasia terminating in acute megakaryoblastic leukemia, June 448; apolipoprotein A-I/B ratios as useful in coronary heart disease risk assessment, Oct 790; ASCP workshop on, July 499, 500; biochemical markers in risk stratification and diagnosis of acute coronary syndromes, Jan 42; changing HIV paradigm, Sept 693; chronic myelogenous leukemia, March 203; common errors in sweat testing reporting for cystic fibrosis, Jan 55; newborn screening for cystic fibrosis, March 212; qualitative test for screening cystinuria, March 214; rapid diagnosis of viral infections, April 283; reverse problem based learning, March 218; rheumatoid arthritis, July 543; Tandem-E Immunoenzymetric and Immuno-1 PSA assays compared, March 208; therapeutic potential of prion protein peptides in transmissible spongiform encephalopathies, May 369; two techniques for heparin therapy monitoring with amidolytic anti-factor Xa assay, Oct 789
Monoganglioside: in HIV infection, Sept 695
Monomethylarsine, June 439
Monosodium urate: Shidham's staining method for evaluating, Feb 117, April 252 (letter)
Mood Disorder, July 512
Moulds: antifungal susceptibility methods for, Aug 627
Mucorales, June 455
Mucormycosis, June 455
Multiple myeloma, Nov 854
Muscle tension: anatomy and physiology of, Feb 105
Muscular dystrophy: genetic problem identified in, Oct 752
Myasthenia gravis: new findings on, June 420
Mycobacterium: Gram's stain of, Aug 610f
Mycology: antifungal susceptibility methods, Aug 626; mucormycosis, June 455
Myelin basic protein: autistic children positive for antibody to, Sept 710
Myeloma: with extensive desmoplastic bone marrow fibrosis, May 389
Myocardial infarction: biochemical markers in risk stratification and diagnosis of, Jan 42, March 172 (letter); congestive heart failure following, Oct 796; reverse problem-based learning for, March 218
Myoglobin: in risk stratification and diagnosis of acute

coronary syndromes, Jan 43, 47
Myokinase, Jan 43

N
Naegleria fowleri, Jan 57
National Accrediting Agency for Clinical Laboratory Sciences (NAACLS), July 507
National Antimicrobial Resistance Monitoring System, June 435
National Center for Infectious Diseases, June 431
National Cholesterol Education Program (NCEP), April 268, 271
National Committee for Clinical Laboratory Standards (NCCLS): M27-A and M38-A procedures, Aug 626
National Gene Vector Laboratories, Jan 19
National Human Genome Research Institute, Oct 753
National Institute of Allergy and Infectious Diseases (NIAID), June 420, 421
National Institutes of Health (NIH): cholesterol report, April 267; in Osteoarthritis Initiative, Oct 754; in Task Force on Genetic Testing, July 502
Natriuretic peptide, B-type: in congestive heart failure diagnosis and management, Oct 793
Natural killer (NK) cells, April 278
Nefazodone: laboratory monitoring during depression treatment, July 513
Neisseria gonorrhoeae: urethritis associated with, June 465
Neonatal screening: for cystic fibrosis, March 212
Nephrology: marked proteinuria in a young male, June 463
Nervous system: under stress, Feb 104
Neutropenia: vancomycin-induced, Oct 773
Niacin: for cholesterol control, April 270
Nitric oxide: in sickle cell disease treatment, July 540
Nocardia asteroides: Gram's stain of, Aug 611f
Noncardiogenic pulmonary transfusion reaction, April 292
Nosebleeds: excessive, July 564
Nucleic acid amplification tests: for HIV and HCV, May 339; for virus detection, April 285
Nursing homes: expenditures rise for, May 339

O
Obesity: top issue of 2002, Dec 915
Occupational Safety and Health Administration (OSHA): on arsenic exposure, June 443; laboratory self-inspection, Feb 124; phlebotomy standards, March 185, May 337 (letter)
On the job training: difficulties with, Sept 670; as response to manpower shortage, July 505
Organon Teknika NucliSens HIV-1 QT, Feb 106
Osteoarthritis Initiative, Oct 754
Osteoporosis: and adolescent calcium intake, Feb 94
Ovarian cancer: genetic testing guidelines for, July 503; protein patterns for identifying, April 255
Overtime: mandatory, June 414 (letter)
Overview: biochemical markers in risk stratification and diagnosis of acute coronary syndromes, Jan 42; changing HIV paradigm, Sept 693; hospital point-of-care data collection and integration, Jan 33; immune mediated transfusion reactions, April 287; non-immune mediated transfusion reactions, May 380; quorum sensing in treatment of chronic bacterial biofilm infections, April 295; rhinosporidiosis, Aug 631; sickle cell disease, July 515; vaccines and autism, Sept 708

P
Pancreatic cancer: new radioimmunoassay kit approved for, July 497
Paracoccidioidomycosis, Dec 930
Parasites: transfusions transmitting, May 383; *Trypanosoma brucei* in sleeping sickness, Oct 783
Parasympathetic nervous system: under stress, Feb 104
Parathyroid hypertensive factor: and autism, Sept 713
Parkinson's disease: implant for treatment of, March 176
Pathogens: top issue of 2002, Dec 916
Patient identification: in phlebotomy, March 180
Penicillium marneffei, Dec 931
Pentamidine: in trypanosomiasis treatment, Oct 787
Peptides: therapeutic potential of prion protein peptides in transmissible spongiform encephalopathies, May 369
Percutaneous indwelling central catheter (PICC): drawing blood from, Feb 123
Peripheral blood smears: reticulocyte estimate from, for evaluating anemia, Sept 703
Pesticides: arsenic in, June 443
Phenotype resistance assays, March 197
Philadelphia chromosome, March 204
Phlebotomy: blood culture contamination reduction by policy for central intravenous catheters, Oct 797; correct procedure for PICC or IV port, Feb 123; education and certification as growing issue, Jan 11; hemolysis in serum samples drawn by emergency department personnel versus laboratory phlebotomists, May 378, Aug 589 (letter); immune mediated transfusion reactions, April 287; "Media," March 229; non-immune mediated transfusion reactions, May 380; one phlebotomist's view, Aug 590 (letter), Oct 813 (letter); two techniques for heparin therapy monitoring with amidolytic anti-factor Xa assay, Oct 789; typical day in, Feb 92, May 336 (letter); variation in, March 179, May 337 (letter)
Phosphodiesterase: and autism, Sept 713
Physician CME, Nov 837
Physician office laboratories (POLs): staffing problems in, Sept 670 (letter)
Physician test ordering: test utilization affected by, Oct 763
Picture archive and communication systems: in hospital-wide systems, March 187
Pilomatricoma, Nov 864
Pink disease (acrodynia), Aug 622, Sept 713
Pituitary adenylate cyclase activating receptor, Sept 695
Plague: as reemergent, June 436
Platelet factor 4, Oct 789
Plaut, David S: ASCP workshop on quality control, July 500
Pneumocystis carinii: apperance in tissue, Dec 931; Gram's stain of, Aug 610f, 612
Point-of-care (POC) tests: barcode-enabled point-of-care (BPOC) systems, Sept 686; data collection and integration for hospital, Jan 33, March 173 (letter); in hospital-wide systems, March 189; new diagnostic technology for, Sept 691
Polarizing microscopy: theory of, Feb 122
Poliomyelitis: national laboratory inventory of wild poliovirus, Oct 755
Post transfusion purpura, April 294
Potassium tellurite: as anti-sickling agent, July 541
Prednisone: for autoimmune hepatitis treatment, April 276
Priapism: with sickle cell disease, July 516
Primary adrenal insufficiency, Jan 64
Prion protein: therapeutic potential in transmissible spongiform encephalopathies, May 369
Problem-based learning, March 218
Procedures: safety, Feb 124
Prostate specific antigen (PSA): new assay approved for, June 419; follow-up levels, Dec 911; Tandem-E Immunoenzymetric and Immuno-1 assays compared, March 208, May 336 (letter), June 414 (letter)
Protease inhibitors, March 199
Proteases: in trypanosomiasis (sleeping sickness), Oct 786
Proteinuria: in a young male, June 463
Prothrombin time (PT): with prolonged aPTT, July 562
P-selectin: in risk stratification and diagnosis of acute coronary syndromes, Jan 43, 49
Pseudogout: Shidham's staining method for monosodium urate crystals, Feb 117
Pseudomonas aeruginosa: quorum sensing regulating biofilm formation in, April 295, 298
Pulmonary embolism: D-Dimer in diagnosis of, Feb 139; vena cava thrombosis and fatal, July 553
Pyridinoline: in rheumatoid arthritis diagnosis, July 548

Q
"Q&A": cold agglutinins, Jan 54; correct procedure for PICC or IV port, Feb 123
Quality assurance: ASCP workshop on, July 500; with autoverification in laboratory information systems, Jan 23; blood culture contamination reduction by policy for central intravenous catheters, Oct 797; blood smear review criteria, May 374
Quorum sensing: in treatment of chronic bacterial biofilm infections, April 295

R

Radiation: laboratory self-inspection for safety, Feb 125
Radiofrequency energy: for cancer treatment, March 175
Radio-frequency interstitial tissue ablation, Jan 30
Radiography: in rheumatoid arthritis diagnosis, July 544, 545
Radioimmunoassay (RIA): new pancreatic cancer kit approved, July 497
Randell, Donna: ASCP workshop of, July 500
Rapid antigen/enzyme membrane tests: for respiratory virus detection, April 284
Rapid tests: for viral infections, April 283
Recurrent sinusitis, Nov 849
Regulation: ASCP workshop on, July 500; autoverification in laboratory information systems, Jan 22
Relaxation: psychophysiology of stress and, Feb 103
Repiratory viruses: rapid tests for, April 283
Reporting: CDC guidelines for reporting HIV laboratory test results, Feb 106; common errors in sweat test, Jan 55
Respiration: anatomy and physiology of, Feb 105
Respiratory viruses: rapid diagnosis of, April 283
Reticulocyte estimate: for evaluating anemia, Sept 703
Reverse problem based learning, March 218
Rhabdomyolysis, Nov 860
Rh blood group: discrepancies in blood typing, Feb 145
Rheumatic fever: heart damage mechanism of, June 421
Rheumatoid arthritis: new developments in laboratory tests and therapy for, July 543
Rheumatoid factors: in rheumatoid arthritis diagnosis, July 544, 546
Rhinosporidiosis, Aug 631
Rhinosporidium seeberi, Aug 631
RHP factor: in rheumatoid arthritis diagnosis, July 547
Rice-Spearman, Lori: on medical technologist education, Oct 759, 760
Robb, James: on SNOMED CT, April 264
Roche Amplicor HIV-1 Monitor, Feb 106
Rosch, Paul: on stress-related disorders, Feb 102, April 254 (letter)
Rotating Delivery of Excitation Off-Resonance (RODEO), Jan 30
Rotavirus: rapid diagnosis of, April 286
"Rounds": acquired factor V inhibitor with lupus-like features, July 551; African sleeping sickness in young American tourist, Oct 783; agnogenic myeloid metaplasia terminating in acute megakaryoblastic leukemia, June 448; autoimmune hepatitis type 2, April 273; chronic myelogenous leukemia, March 203; cold agglutinin syndrome,- June 457; Lemierre's syndrome in young adult, March 222; primary amoebic meningoencephalitis, Jan 57; role of fine needle aspiration in diagnosis of infectious disease, Nov 866; solid phase antibody detection technique, Feb 131; vena cava thrombosis and fatal pulmonary embolus, July 553

S

Safety: accidental polio infection, Oct 755; laboratory self-inspection, Feb 123, May 338 (letter); with mercury heating, Aug 618. *See also* Occupational Safety and Health Administration
Salaries: laboratorians lagging behind other health care workers, July 506
Salmonella: drug resistance in, June 436
Salmonella typhi: acute diarrhea caused by, Oct 775
Salmonella typhimurium, June 432
Sample processing: of genetic testing, July 504
Science: antibodies in laboratory testing, Nov 873; apolipoprotein A-I/B ratios as useful in coronary heart disease risk assessment, Oct 790; D-Dimer in venous thromboembolism diagnosis, Feb 136; Gram's stain, Aug 609; hemolysis in serum samples drawn by emergency department personnel versus laboratory phlebotomists, May 378; immunoassay versus acid-fast staining for *Cryptosporidium* detection, June 451; qualitative test for screening cystinuria, March 214; reticulocyte estimate from peripheral blood smear for evaluating anemia, Sept 703; Shidham's staining method, Feb 117; Tandem-E Immunoenzymetric and Immuno-1 PSA assays compared, March 208; therapeutic potential of prion protein peptides in transmissible spongiform encephalopathies, May 369; two techniques for heparin therapy monitoring with amidolytic anti-factor Xa assay, Oct 789
Scientific manuscripts: guidelines for preparing, Jan 77, Feb 127
Screening: for congestive heart failure, Oct 796; for cystic fibrosis, July 503; liver enzymes for screening prior to hepatitis testing, June 429; of newborns for cystic fibrosis, March 212; nucleic acid test for HIV and HVC, May 339; qualitative test for cystinuria, March 214; for sickle cell disease, July 518
Secretary's Advisory Committee on Genetic Testing (SACGT), July 502
Secretin: and autism, Sept 715
Selective serotonin reuptake inhibitor antidepressants: laboratory monitoring during depression treatment, July 513
Semen analysis: "Media," June 471
Sentinel lymph node biopsy, Jan 29
September 11 attacks: coping with stress, fear, and frustration, Feb 101; medical technologist curriculum affected by, Oct 758; states actively address bioterrorism, Feb 97
Septicemia: blood culture contamination reduction by policy for central intravenous catheters, Oct 797
Serratia liquefaciens: quorum sensing regulating biofilm formation in, April 295; transfusion-related bacterial contamination, May 380
Serum amyloid A: in rheumatoid arthritis diagnosis, July 547; in risk stratification and diagnosis of acute coronary syndromes, Jan 43, 50
Shidham's staining method, Feb 117
Sickle cell disease, July 515
Silver staining: for spirochetes in tissues, Sept 705
Simpson, Peggy: on medical technologist education, Oct 758, 759
Skrinska, Victor: on medical technologist education, Oct 758, 759
Sleeping sickness (trypanosomiasis), Oct 783
Smallpox: interim CDC plan for, Feb 94
Smith, Jill: ASCP workshop on body fluid and cellular morphology, July 499
Smoking: CDC estimate of costs of, June 419
SNOMED Clinical Terms (CT), April 263
Sodium cromoglicate: as anti-sickling agent, July 541
Solid phase antibody detection technique, Feb 131
Soluble fibrin: in risk stratification and diagnosis of acute coronary syndromes, Jan 43, 49
"Special Report": ASCP Board of Registry statistics, January through December 2001, Sept 673; ASCP Board of Registry statistics, laboratory programs, Nov 831; ASCP scholarship winners, Sept 675; ASCP workshops for laboratory professionals, July 499; autoverification in laboratory information systems, Jan 21; CDC guidelines for reporting HIV laboratory test results, Feb 106; coping with stress, fear, and frustration, Feb 101; effective compliance programs a must, Feb 99; liver enzymes for screening prior to hepatitis testing, June 429; measurement of variation in videotaped outpatient phlebotomies, March 179, May 337 (letter); physician CME, Nov 837; SNOMED Clinical Terms, April 263; states actively address bioterrorism, Feb 97; a summer in Ethiopia, April 259; things to see at ASCP/CAP Exhibition, Sept 680; things to see at CLMA/ASCP Exhibition, June 427
Spectrophotometry: for antifungal testing, Aug 627
Spirochetes: silver staining for, Sept 705
Spongiform encephalopathies: therapeutic potential of prion protein peptides in transmissible, May 369
Sporotrichosis, Dec 931
Sprecher, Dennis: on statins for cholesterol reduction, April 269
Staffing: ASCP workforce shortage initiatives, July 496; and expense management, Oct 762; on the job training as response to manpower shortage, July 505; in small town laboratories, March 172 (letter)
Statins: for cholesterol reduction, April 269
Staudt, Louis M: on biochip for chemotherapy assessment, Aug 596
Stentz, Terry: on lack of sleep, Feb 102

Stevens-Johnson syndrome, Oct 773
Streptococcus: in heart damage mechanism of rheumatic fever, June 421
Stress: ASCP workshop addressing, July 500; coping with, Feb 101, April 254 (letter)
Strongyloides stercoralis: Gram's stain of, Aug 609f
Sulfatide: in HIV infection, Sept 695
Suramin: in trypanosomiasis treatment, Oct 787
Surgical pathology: SNOMED CT and, April 266
Sweat test: common errors in reporting, Jan 55
Sympathetic nervous system: under stress, Feb 104
Syphilis: mercury for treating, Aug 618; transfusion-related bacterial contamination, May 380
Systemic lupus erythematosus: in middle-age male, Dec 917

T
Tamoxifen, Jan 29
Task Force on Genetic Testing, July 502
Taylor, Annette: on genetic testing samples, July 504
T-cells: in rheumatoid arthritis, July 549
Tech Samples: manuscript of the year, June 472
Terminology: SNOMED CT, April 263
Terrorism: arsenic as possible chemical agent, June 437. *See also* Bioterrorism
Test utilization: in budget constrained environment, Oct 761
alpha-Thalassemia: hemoglobin S and, July 517
Thalassemias: hemoglobin S and, July 517
Therapeutic turnaround time: test utilization affecting, Oct 764
Thimerosal: in vaccines, Aug 621, Sept 708, 711
Thompson, Tommy: on coronary artery disease and diabetes, April 269
Thrombocytopenia: in trypanosomiasis (sleeping sickness), Oct 786, 789
Thromboembolism: D-Dimer in diagnosis of venous, Feb 136, April 253 (letter)
Thrombosis: vena cava thrombosis and fatal pulmonary embolus, July 553
Thrombotic thrombocytopenic purpura: and excessive nosebleeds, July 564
Thyroid stimulating hormone (TSH): in depression diagnosis, July 513
Ticks: transfusion transmitting tick-borne pathogens, May 383, July 495 (letter)
Tissue processing: validating procedures for human, June 418
T-lymphocyte triggering factor: in trypanosomiasis (sleeping sickness), Oct 786
Toxicogenomics Research Foundation, March 175
Toxicology: arsenic, June 437; "Media," Oct 804; mercury, Aug 614; needle-shaped urine crystals in ethylene glycol poisoning, Aug 637
Toxoplasma gondii: Gram's stain for, Aug 613
Training: hospital point-of-care data collection and integration, Jan 33; in identification of bioterrorism agents, Sept 699; laboratory self-inspection for safety, Feb 123; on the job training as response to manpower shortage, July 505; reverse problem based learning, March 218. *See also* Education
Transfusion-associated graft-versus-host disease, April 293
Transfusion medicine: autologous transfusion, Oct 751; blood smear review criteria, May 374; blood typing and discrepancies, Feb 145; cold-reactive autoantibodies, April 309; delayed hemolysis, Feb 148; hemolysis in serum samples drawn by emergency department personnel versus laboratory phlebotomists, May 378; immune hemolysis, Feb 147; immune mediated transfusion reactions, April 287; "Media," July 567; new blood system, Dec 911; non-immune mediated transfusion reactions, May 380, July 495 (letter); in sickle cell disease treatment, July 540; solid phase antibody detection technique, Feb 131
Transfusion reactions: immune mediated, April 287; non-immune mediated, May 380
Transfusion-related bacterial contamination, May 380
Transmissible spongiform encephalopathies: therapeutic potential of prion protein peptides in, May 369
Trent, Jeffrey: on genetic testing for breast cancer, Jan 28
Triazoles: antifungal susceptibility methods for, Aug 626
Trichomonads: Gram's stain of, Aug 611f
Trichomonas vaginalis: Gram's stain of, Aug 613
Tricyclic antidepressants: laboratory monitoring during depression treatment, July 513
Trophotropic responses, Feb 104
Trypanosoma brucei: in trypanosomiasis (sleeping sickness), Oct 783
Trypanosoma brucei gambiense, Oct 784
Trypanosoma brucei rhodesiense, Oct 784
Trypanosomiasis (sleeping sickness), Oct 783
Trypsinogen: in cystic fibrosis screening, March 212
Tsetse fly: in trypanosomiasis (sleeping sickness), Oct 783
TT virus, May 383
Tumoral calcinosis: Shidham's staining method for water-soluble crystals, Feb 117
Turnaround time: autoverification in laboratory information systems for reducing, Jan 21
Tyrosinemia, hereditary, March 176

U
Ultrasound: in breast cancer detection, Jan 28; in venous thromboembolism diagnosis, Feb 139
Uphoff, Timothy S: ASCP workshop on molecular diagnosis, July 499, 500
Urethritis, June 465
Urinalysis: for arsenic, June 445; conflicting whole blood and urine ethanol results, March 227; hospital point-of-care data collection and integration, Jan 34; for mercury, Aug 623; needle-shaped urine crystals in ethylene glycol poisoning, Aug 637

V
Vaccines: and autism, Sept 708; thimerosal in, Aug 621, Sept 708
Valproic acid: laboratory monitoring during depression treatment, July 513
Vancomycin: neutropenia induced by, Oct 773
Varicella-zoster virus: rapid diagnosis of, April 285
Vasoactive intestinal polypeptide receptor, Sept 695
Venipunctures: variation in phlebotomies, March 180
Venous thromboembolism: D-Dimer in diagnosis of, Feb 136, April 253 (letter)
Very-low-density lipoprotein (VLDL): apolipoproteins and, Oct 791; NIH cholesterol report on, April 268
Viral load testing (plasma HIV-RNA): CDC guidelines for reporting results, Feb 106; laboratory monitoring in HIV management, March 195
Virology: antifungal susceptibility methods, Aug 626; changing HIV paradigm, Sept 693; Gram's stain, Aug 609; mixed aphasia in adult male with AIDS, Oct 769; mucormycosis, June 455; primary amoebic meningoencephalitis, Jan 57; rapid diagnosis of viral infections, April 283; rhinosporidiosis, Aug 631; silver staining for spirochetes in tissues, Sept 705; training laboratory personnel to identify the agents of bioterrorism, Sept 699
Viruses: natural killer cells and infections by, April 279; rapid diagnosis of viral infections, April 283; transfusions transmitting, May 382
Vitamin A: and autism, Sept 714
Von Willebrand disease: in prolonged bleeding from tongue in an infant, July 560

W
Warthin-Starry technique: silver staining for spirochetes in tissues, Sept 705
Watterson, Linda: on breast cancer patients, Jan 31
Wenk, Peggy: on breast cancer detection, Jan 31
West Nile virus: CDC campaign against, Oct 754; top issue of 2002, Dec 914; in transplants and transfusions, Nov 830
White blood cell (WBC) differential count: blood smear review criteria, May 374
Whooping cough: as reemergent, June 436
Wood: arsenic-treated, June 437, 444
World Wide Web: CDC bioterrorism site, March 177; stress-related sites, Feb 105

Y
Yeasts: antifungal susceptibility methods for, Aug 626, appearance in tissue sections, Dec 930
Yersinia enterocolitica: transfusion-related bacterial

contamination, May 380
Yersinia pestis: ciprofloxacin used against, June 436; training laboratory personnel to identify, Sept 700

Z

Zinc: and autism, Sept 715
Zygomycetes, June 455
